Dear Mr. Tipton:

We have received a request from Mrs. Celia Fay for a meeting of the pollution control commission with the City Council.

We are sure you are aware of the change of the structure of the commission from the Mayor's Pollution Control Commission to the Three Rivers Pollution Control Advisory Commission which became effective May 20, 1969. This change of structure involved the appointing of representatives from Allen County and New Haven, during May and June, 1969, which provided for county-wide representation on the pollution control commission. In addition, during a joint meeting with the Three Rivers Coordinating Council, it was decided that optimum funding and effectiveness of the pollution control commission would occur by the commission becoming the Three Rivers Pollution Control Advisory Commission and acting as a advisory commission to the Three Rivers Coordinating Council. In view of this new role of the pollution control commission, it has been decided the proper reporting procedure should be to report to the Three Rivers Coordinating Council. Mr. Rousseau, your representative on the Three Rivers Coordinating Council, can then report to the City Council as the representatives from Allen County and New Haven can report to their respective councils.

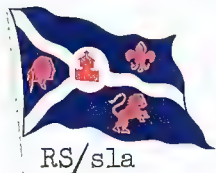

We would like to state the volunteer members of the Three Rivers Pollution Control Advisory Commission have worked long and diligently, and the commission is making definite progress in the field of air and water pollution.

We would like to express our appreciation for your consideration, and if we can be of further service in this or other matters, please contact us at your convenience.

Very truly yours,

Dr. Raymond Smith
